Signed _____

Permit Authorizing Individual (PAI)
(Individual designated by Management to authorize hot work.
The PAI cannot be the hot work operator.)

Time started _____ Completed _____

ATTENTION

Before approving any hot work permit, the PAI shall inspect the work area and confirm that required precautions have been taken to prevent fire in accordance with the following:

GENERAL

- Sprinklers in service
- Hot work equipment in good repair
- Flammables within 75 feet removed
- Conveyors and suction systems within the welding area turned off
- Proper precautions taken associated with arc welding and wetting down of area

WITHIN 35 FT OF WORK

- Work area swept clean of combustibles
- Work area and exposed lower level(s) thoroughly wet down (both before and after work), covered with damp sand, metal, or other shields
- All wall and floor openings covered with fire retardant tarpaulin or shielded by non-combustible material
- Covers suspended beneath work to collect sparks

WORK ON WALLS OR CEILINGS

- Construction noncombustible and without combustible covering
- Combustibles moved away from opposite side of wall

WORK ON ENCLOSED EQUIPMENT

(Tanks, containers, ducts, dust collectors, etc.)

- Equipment cleaned of all combustibles
- Containers purged of flammable vapors and then tested for effective purging using a combustible gas indicator

FIRE WATCH

- To be provided during and 30 minutes after operation
- Supplied with a fully charged and operable fire extinguisher
- Trained in use of equipment and in sounding fire alarm

FINAL CHECK

- To be made 30 minutes after completion of any operation
- Night watchman notified where hot work is performed
